*Live Outside*

## Outdoor living, all year round...

Some of life's best moments happen around fresh air, nature, and comfort. However, a tailored outdoor experience adds your personal touch in creating unforgettable memories for your friends and family.

## Why outdoor living?

We spend more time inside when the fresh air, which is our energy source, is outside. The outdoors are the backdrop of much discovery and connection. From barbecues with friends, to brainstorming with coworkers, and casual me-time, being outside is pivotal for so many of life's events.

Indulge yourself in crafting an outdoor experience that enriches your life.

## Covered patio living means outside living 365

Mother nature tends to dictate life outdoors, but you can have a say as well. An ideal living space includes a patio cover providing modern comforts and protection against the weather. A louvered-roof allows you to control your outdoor environment. Choose from cool and shaded to warm time in the sun, the choice is yours. An outdoor living space in your control awaits.

## Live outside year round

Enjoy your patio all year with a louvered-roof from Renson. Too windy and rainy or too much sun and heat, take control as your own weatherman. With our patio covers you dictate your own experience. This is outdoor living, 100% in your control.

## Future proof your home

Take a deep breath, you've future proofed your home. The patio cover increases your home value and should you decide to find a new home, future buyers will get to indulge in the elevated experience you've created. It's the details, after all, that close deals and you've covered that well.

## Architectural harmony

You're someone who understands architectural beauty. Why not ignite your inner designer to elevate your outdoor environment? The aluminum construction keeps the look timeless. Add in the extensive color options, screen fabric choices, glass panels, and more, you've elevated your home while indulging your inner designer.

## Renovate smart

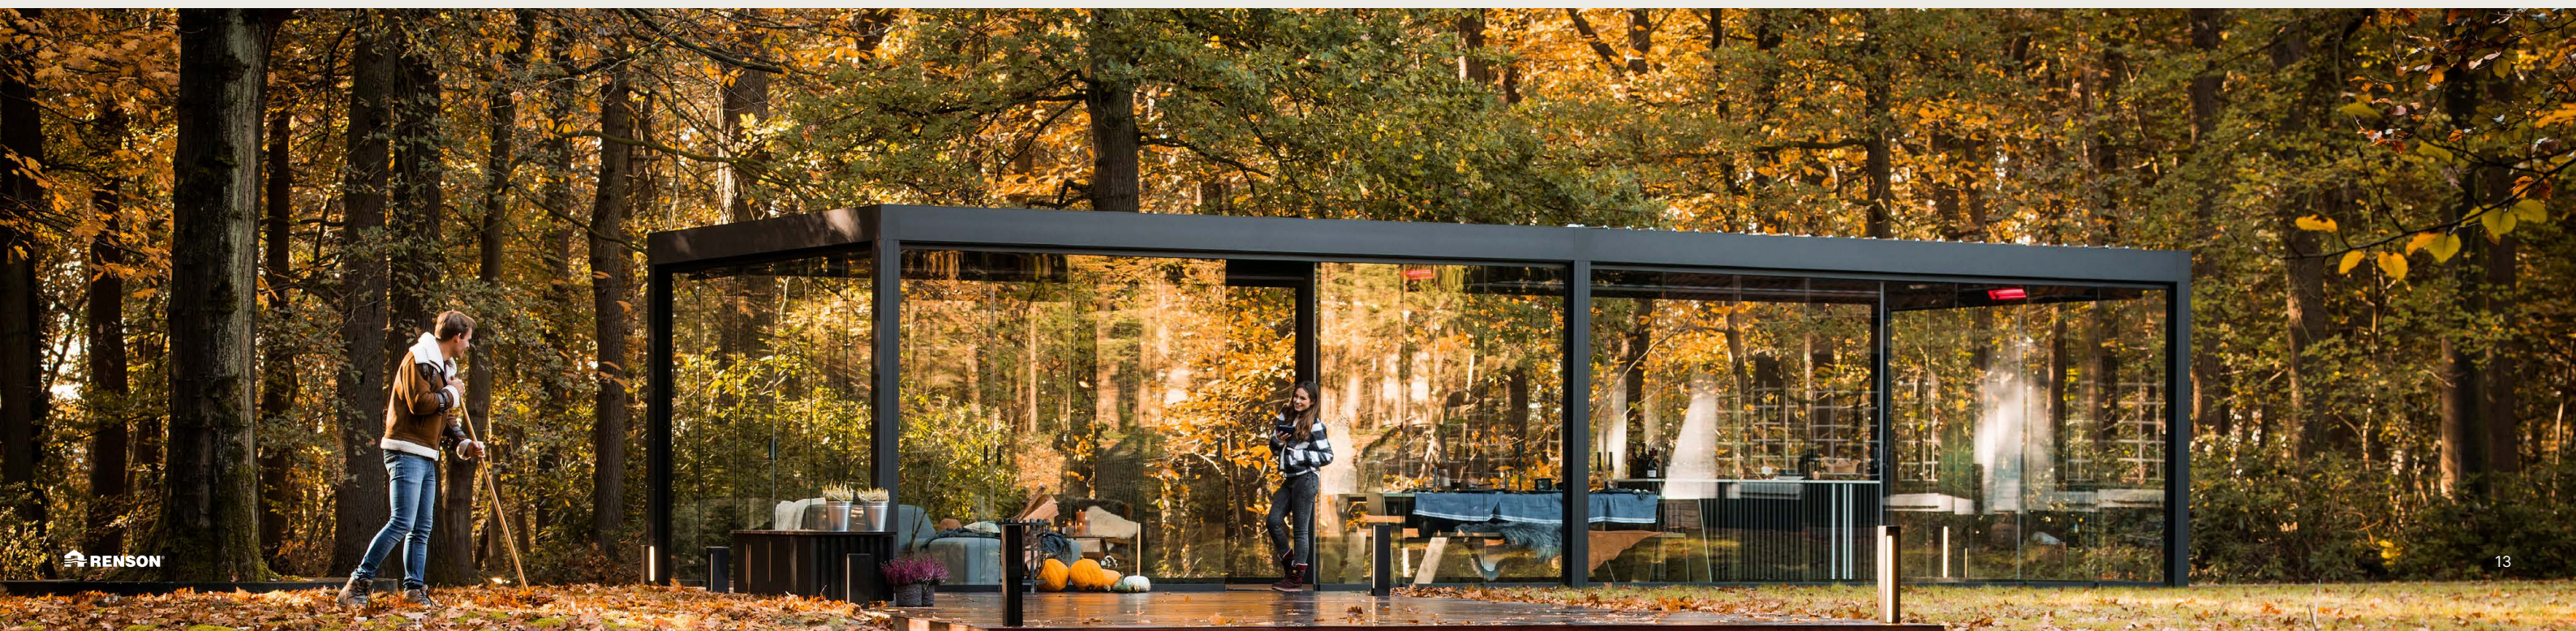

You're looking to upgrade your home but don't have the patience for demolition. That's what makes the patio cover a smart renovation solution. Choose to extend your home with the attachment option or create a separate oasis in your backyard.

## New space, added variety

Your new outside addition turns your home into your own private venue for you, your friends and family. Host barbecues, to dance parties, wine and cheese tastings, to outdoor office gatherings. You can even enjoy glamping right from your own backyard. Not only will you add more space but you have more opportunities to flex your hosting chops.

## Set your outdoor tone

The Renson patio cover offers you the ability to shape your outdoor experience any way you like. From the roof blades, screens, and music to lighting, heat, and more, you control the setting. Create the right atmosphere for every moment in your backyard. The choice is yours.

# Collaboratively creating your personal outdoor experience

Whether you know exactly the outdoor experience you want or need inspiration to build the ultimate experience, your local distributor will gladly work with you in building the ultimate outdoor living space for you.

## STEP 1: GET INSPIRED

Inspiration is the key to building an outdoor living space perfect for you. Our process empowers you to create that experience from browsing our detailed catalog, to viewing accessory options on our website, to even creating your own design using the immersive configurator, you lead the way. We'll support you every step.

## STEP 2: MEET YOUR RENSON SPECIALIST

We're happy to guide you along this creative journey in person. Our extensive distributor network ensures there is always a Renson specialist near you. You can schedule a visit to experience outdoor offerings, optimize your plans, and turn them into reality.

## STEP 3: YOUR CUSTOMIZED OFFER AWAITS

Transparency is our ultimate goal so we make sure everything is included in your personalized quote price. The cost of your patio cover includes the specific dimensions needed, finishes, accessories, and more.

## STEP 4: YOUR QUOTE BECOMES YOUR ORDER

You'll take some time to ensure the details in your order for your new living space are accurate and outline your vision for your space. Your Renson dealer will ensure the production of your order is customized for you. Efficiency is a priority and with thorough preparation and installation, your patio cover can be installed in just one day.

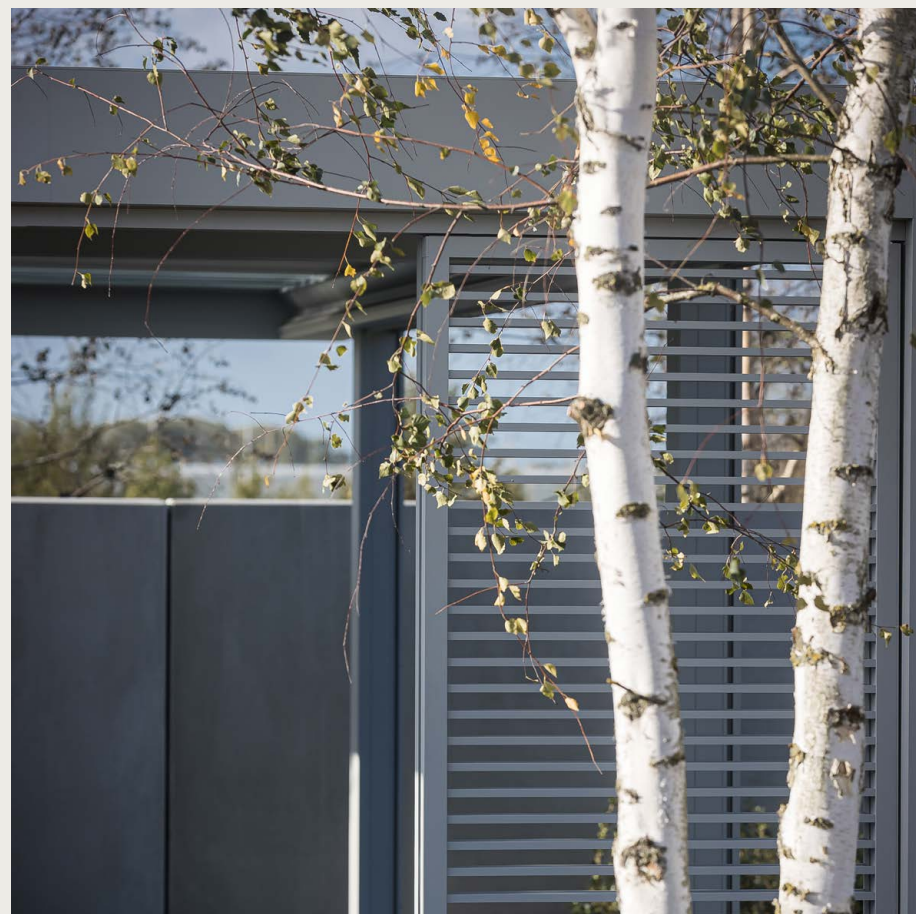

## STEP 5: WELCOME TO YOUR PERSONAL OUTDOOR EXPERIENCE

This is it, your new outdoor living space is ready to be your personalized venue after just one installation day. Pick the event and theme and invite your friends and family over to start making new memories together. Enjoy!

Inspiration

Multi-functional, warm and architectural.  
All year round.  
That's a Renson outdoor living space.  
A green cocoon at home, or a pleasant outdoor space in nature  
for customers or guests? Be inspired.

Design styles

## Six complete outdoor design styles

Ensuring your outdoor environment coordinates with your interior is a priority for you. We understand this, that's why at Renson we bring the best design to your outdoor living space. We've partnered with Belgian color expert and trendwatcher Hilde Francq to create six complete outdoor design styles where the colors, textures, and materials compliment each other.

Hilde's process began with two relevant color trends. "The first group are new neutrals. These are rather muted tones: chalky and terracotta shades, browns, as well as colors with a green undertone," explains Hilde. "They can be easily used with natural materials such as wood and glass. In addition, brighter more optimistic colors can be used as accents."

"We've translated Hilde's philosophy and expertise into six design trends with just as many complete style packages," says Mr. Renson. "This contributes to a uniform look and feel around your home and outdoor living space. You choose a design style that suits your taste and you will have immediate access to the entire palette of textures, materials, and colors. A simple path toward a tasteful and harmonious home awaits."

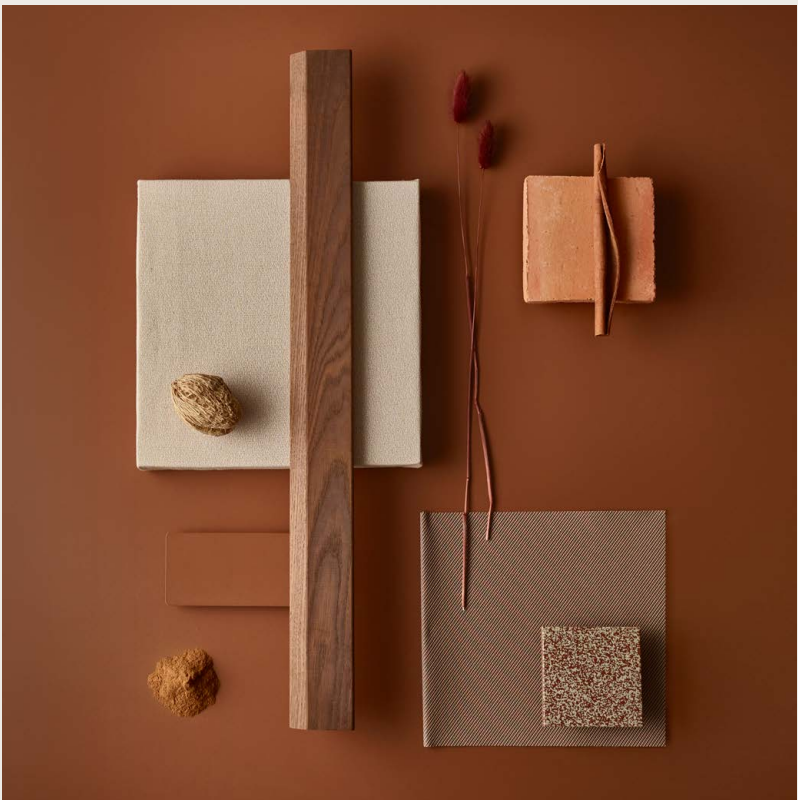

Explore the outdoor design styles on the following pages.

# Earth Oasis

Indulge in the warm earth tones of summer in this style named - Earth Oasis. Natural and artisan materials connect you to the richness of the earth, ensuring perfect harmony between the inside and outside. This style transports you to many sun-drenched distant regions, welcoming you to an everlasting vacation.

Frame and blades RAL 8024  
Fixscreen® SC 1006  
Curtains Thick woven Savannah Yellow  
Loggia Paro Wood  
Loggia Canvas Desert Rock

DESIGN STYLES

You're invited to Italy via terracotta styles. The literal translation meaning "baked earth" brings you into this centuries old material used for vases and pitchers. This trendy, natural, and artisan look truly enchants, whisking you away to an earthly paradise.

# Pure Essence

Pale colors and soft finishes apply to this style named - Pure Essence. Light and space cast a feather like, ethereal feel. You're looking for relaxation and peace and this style captures that.

Frame and blades Beige Essence Retreat  
Fixscreen® SC 2002  
Curtains Refined woven White Corn  
Loggia Paro Wood  
Loggia Canvas Delicate Beige or Mixtrim 10 M0010

Pure Essence means pure enjoyment. Indulge in beautiful moments with family and friends and let the woes of today drift away.

DESIGN STYLES

# Idyllic Garden

Idyllic Garden invites you into the greenery of nature. Sober greys and subtle plant greens define this style as contemporary. All of this ensures you can relax surrounded by nature.

Frame and blades RAL 7032  
Fixscreen® SC 2050  
Curtains Refined woven Planton  
Loggia Paro Privacy Wood  
Loggia Canvas Antique Bronze

DESIGN STYLES

Moreover, green has a relaxing effect. It's for that reason that we selected a varied palette of harmonious green tones for Idyllic Garden. An elegant, airy character with a Mediterranean touch is the result.

# Spiritual Harmony

This minimalist style rooted in a dark color palette is named Spiritual Harmony. Traditional Japanese architecture serves as inspiration for this style, defined by it's colors and materials. What results, is an intimate contemporary setting that balances the body and soul and provides a protective atmosphere.

Frame RAL 7021  
Blades RAL 7021 or wood design walnut  
Fixscreen® N-3006  
Curtains Refined woven Beige Brown  
Loggia Paro Wood  
Loggia Canvas Deep Wood or Mixtrim 10 M0017

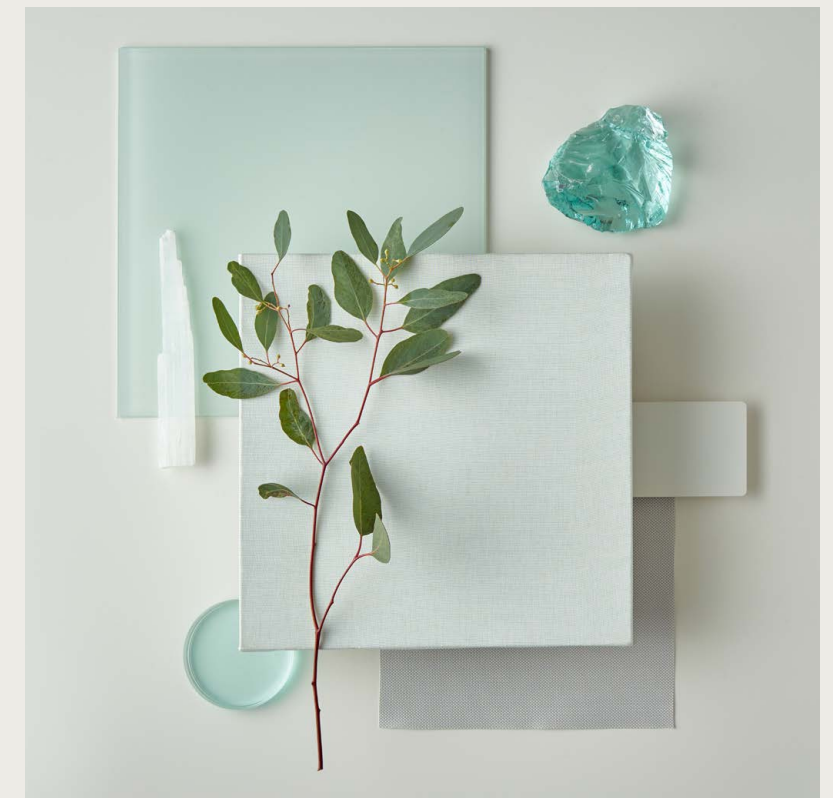

Take inspiration from traditional Japanese tea drinking, a meticulously executed ritual that takes several hours to complete, into your style. Enjoy your daily cup of tea with a moment of reflection. Experience the energy of spring and the richness of fall like never before.

# Crystal Lounge

We named this sleek and minimalist style - Crystal Lounge. It's defined by fresh green tones and a light material palette evoking an airy feeling. What results is modern, light architecture that bridges the inside and outside, perfect for those who love pure nature, fauna, and flora.

DESIGN STYLES

Garden rooms echo this sentiment, feeling like an endless full-length film, with nature in the leading role. Enjoy the play of sun between the branches, or how plants gently move with the wind.

# Tech Cocoon

This radically contemporary yet young style is named Tech Cocoon. It's a warm style that plays with vibrant colors such as soft coral. Pure transparency leads with an emphasis on technical materials such as glass and steel. This style is full of energy and is fresh. Imagine the scent of freshly peeled citrus. That is Tech Cocoon. Welcome in a bold urban look in your outdoor space.

Tech Cocoon is a young design style that leads with a particular flair. From soft coral to terracotta pink, you are invited into a relaxing space with a southern feel. Sit back and enjoy your Aperol.

## SCREENS

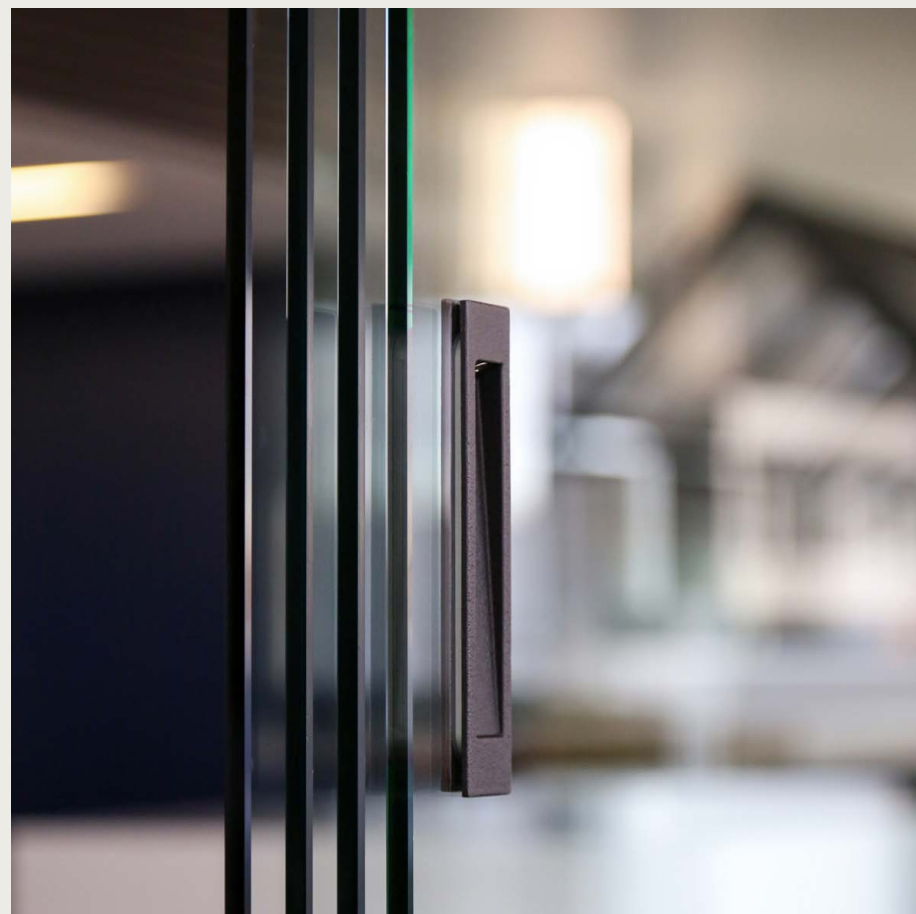

Sun protection fabric enhances your outdoor experience by offering protection from the sun, wind, rain, and even pesky insects at all times.

## LOGGIA®

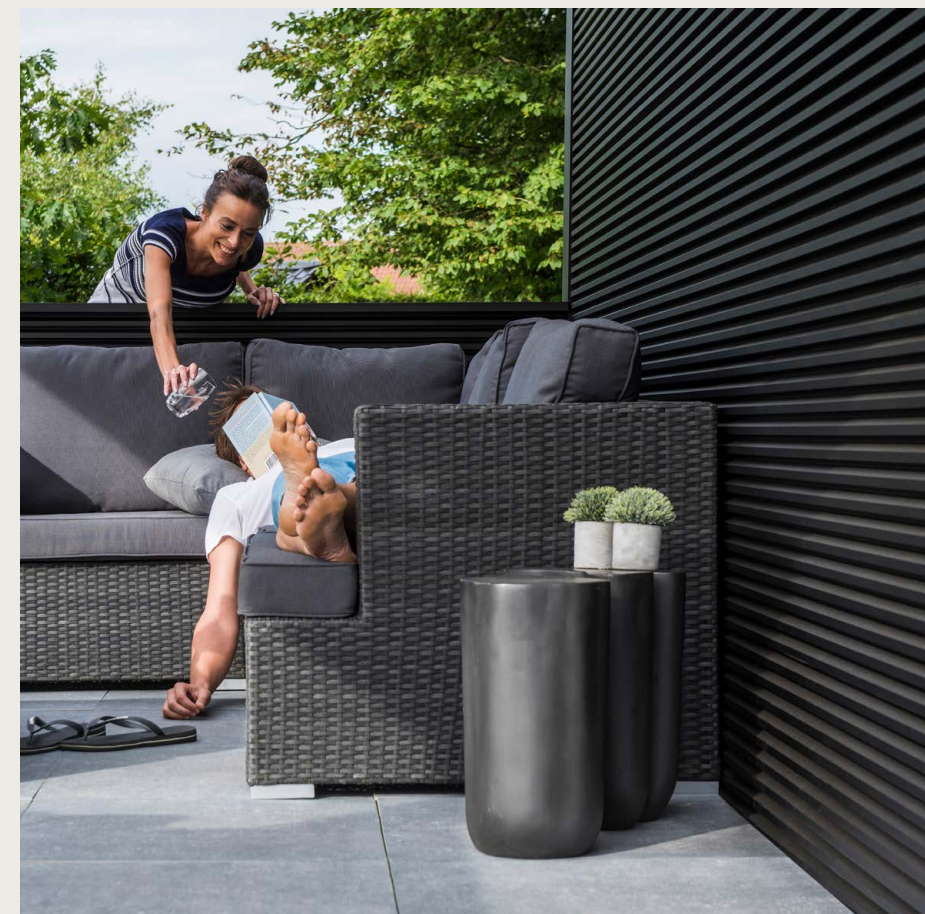

Loggia sliding panels offer protection from the sun and beyond, enhancing both comfort and privacy. Explore the various types, finishes, and materials available.

### GLASS SLIDING PANELS

Extend your summer by integrating glass sliding panels into your outdoor space. Enjoy cozy warmth indoors during the winter while maintaining a panoramic view of the outdoors.

### FIXED WALLS

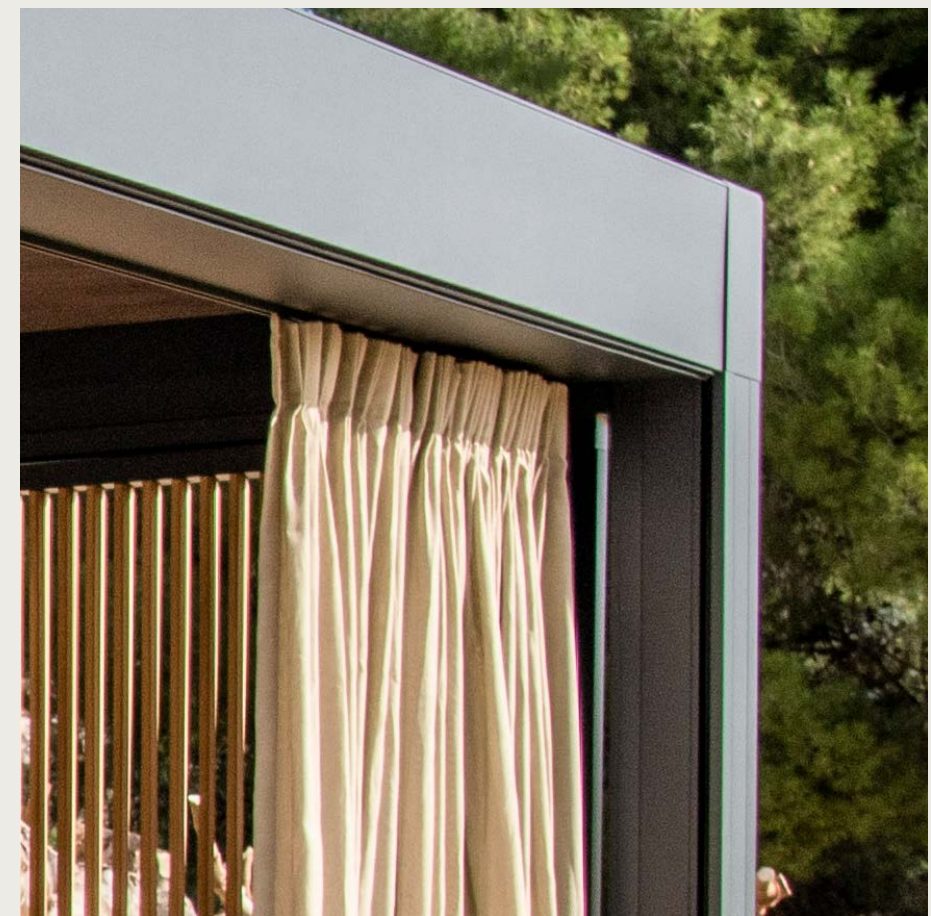

Fixed walls add a unique design touch to your patio cover, providing additional comfort and privacy.

## ALGARVE® COVERED STORAGE

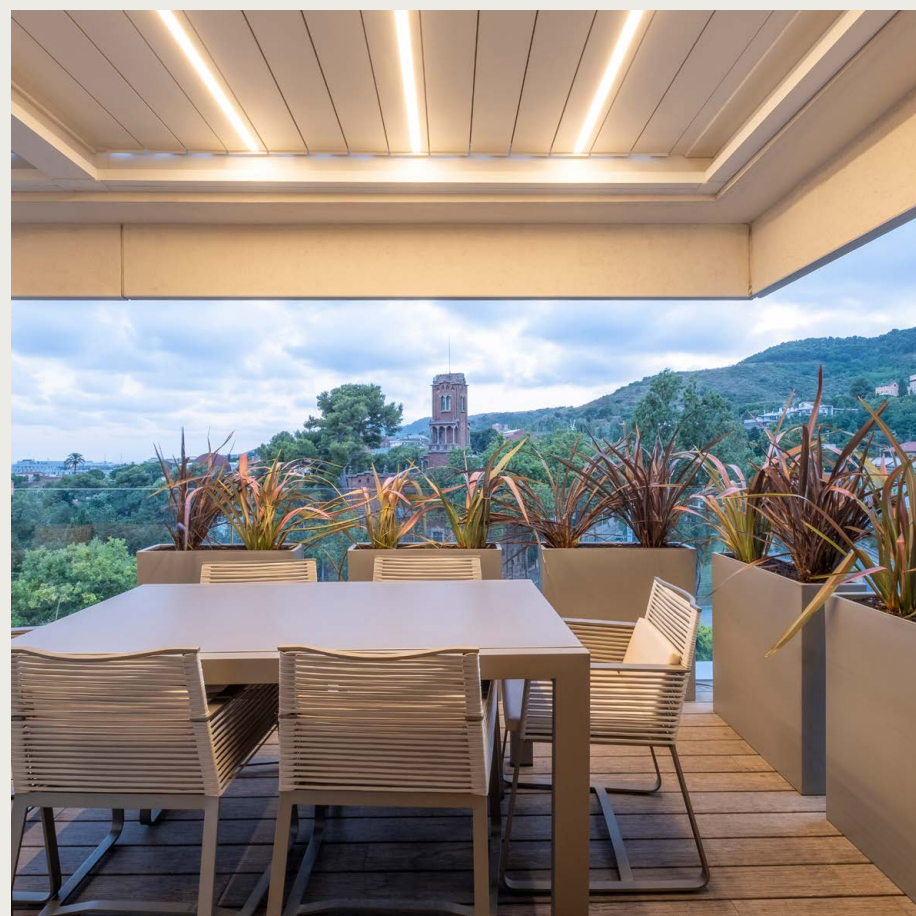

Stylish storage wall for your patio cover or carport for dry, dust-free storage. Easy to finish in wood or aluminum.

## CURTAINS

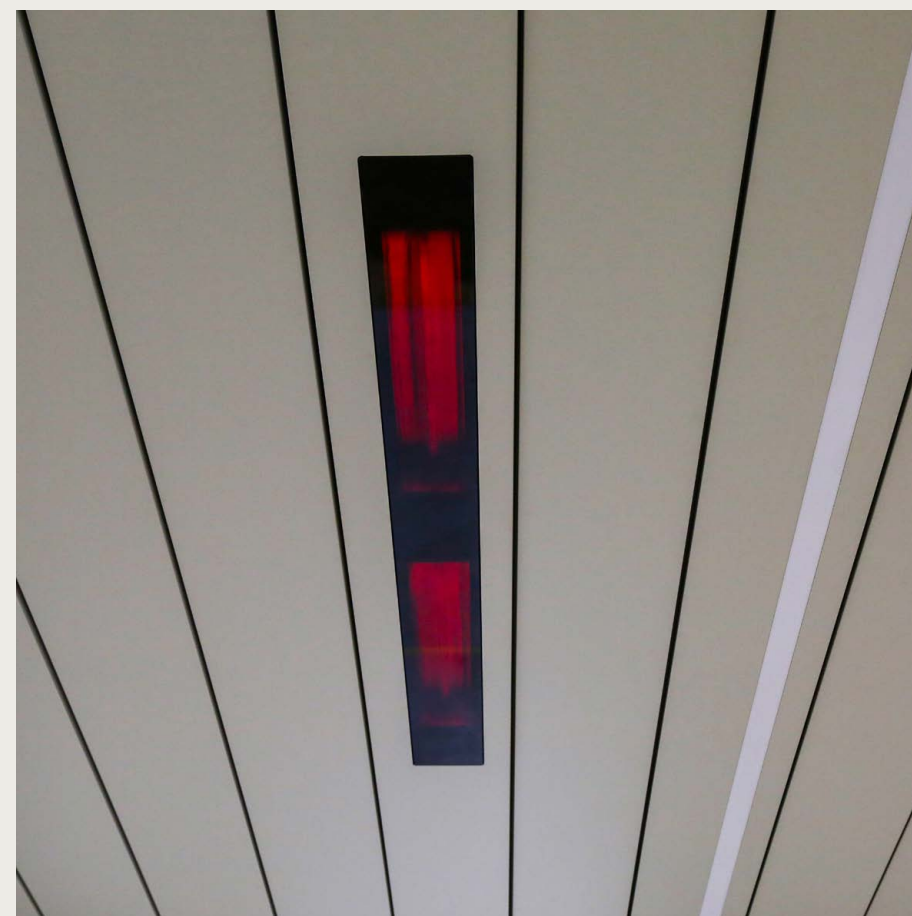

Looking for a cozy accent for your patio cover? Curtains are instant mood setters. A wide range of colors and the option to combine with other accessories lets you easily create your own setting.

## LIGHTING

Bright lighting for a clear view, or just something to create the right atmosphere: the broad range of lighting possibilities means you can easily achieve this. Combine functional lighting as required with cosy spotlights and sleek LED modules.

## HEATING

Integrating heating elements into your outdoor living space allows you to maintain the ideal climate, even in the heart of winter.

### LINEO® FIX

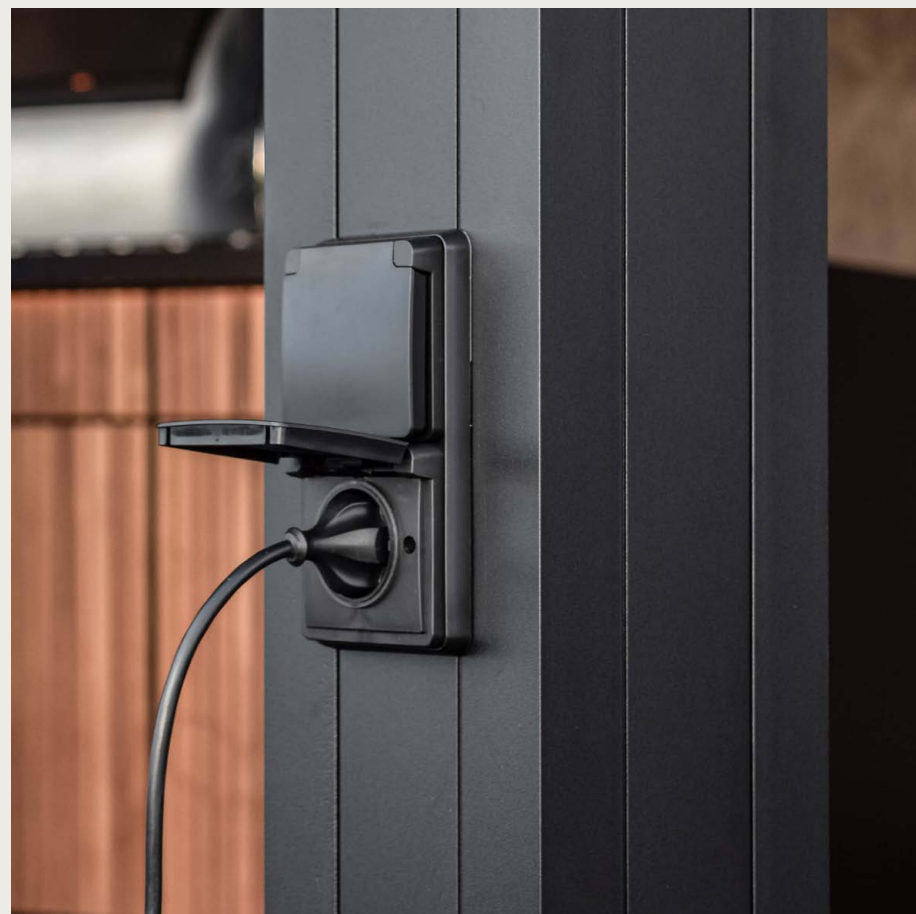

The Lineo Fix features a fixed blade on the louvered roof that does not rotate with the other blades, making it ideal for installing a fan or lighting.

### LINEO® LUCE

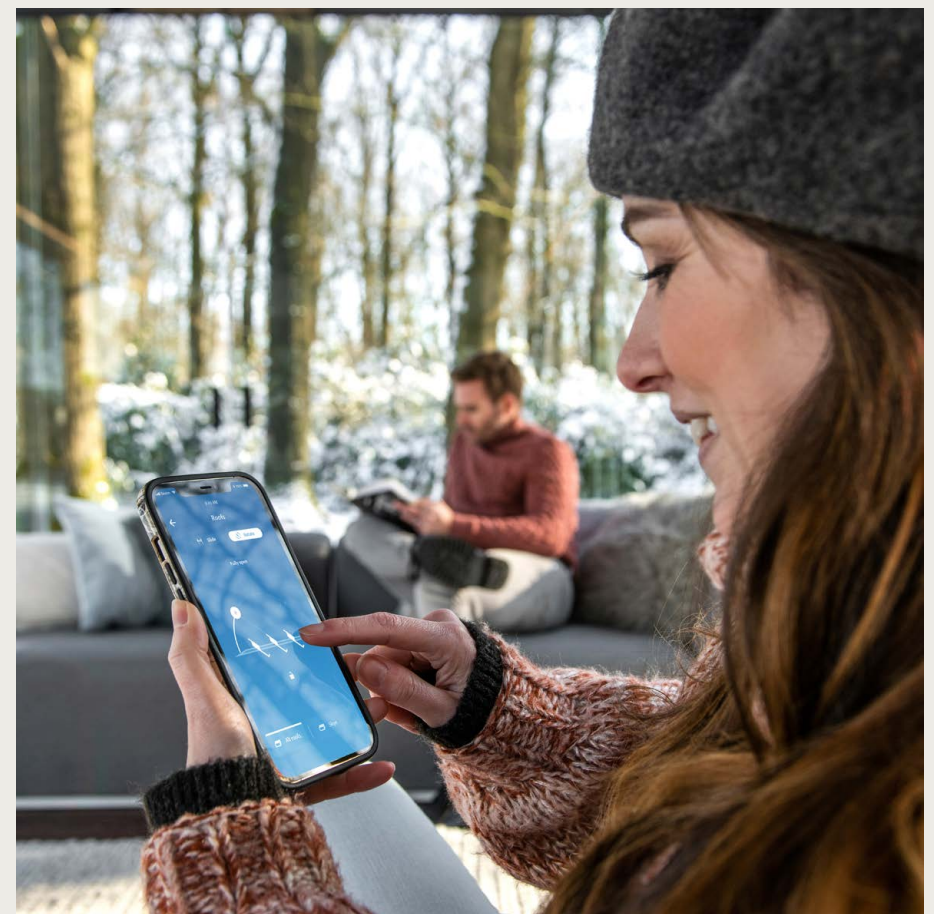

The translucent blades instantly create a sense of openness. The Lineo Luce is made of high-quality matte glass and seamlessly integrates into the bladed roof of your patio cover.

### POWER SOCKET

Integrate a power socket into your patio cover Camargue and increase your outdoor experience even more.

### CONTROL

Operate your louvered roof with your smart device.

## Harmony in your garden

Your outdoor living space and home share more than just architectural aesthetics. Our garden elements allow you to seamlessly extend that style and ambiance to your entire outdoor environment.

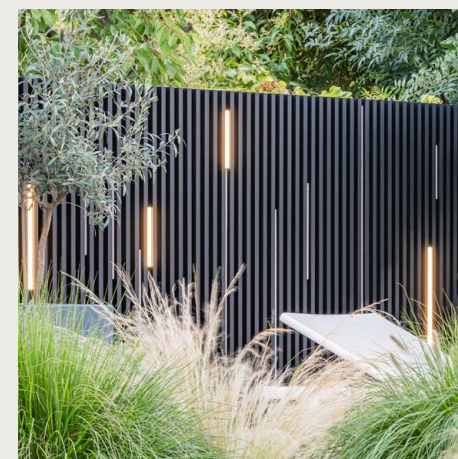

### MODULO

The Linarte Modulo is a versatile garden feature that functions as both customized storage and a planter, as well as a garden bench. Easily customize to fit your needs.

### LINARTE® OUTDOOR LIGHT

Lighting is an undeniable mood setter, particularly when it seamlessly complements your home and backyard. Uniform LED modules with Linarte Even design add stylish lighting to your outdoor environment. Available in two heights and in four different versions, with one or two LEDs, and with or without a power socket.

### ICON

Add partitions or privacy walls with the Linarte Icon. This architectural wall is custom made. One side is covered with Linarte profiles, the other side is finished as desired with a tightly stretched Canvas fabric or with Linarte profiles.

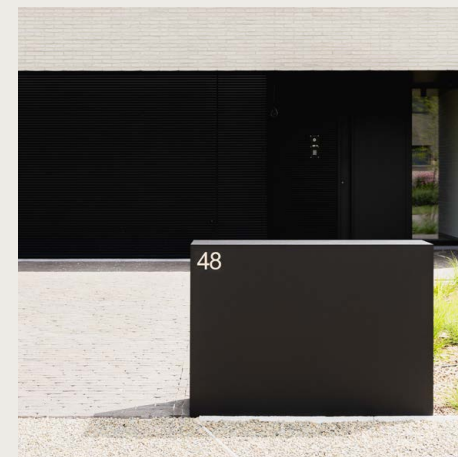

## eSafe® parcel letterboxes

eSafe develops stylish and practical parcel letterboxes suitable for every type of customer and building. eSafe's mission is to enable letters and parcels to be delivered and collected at home 24/7. The range of customization options adds architectural value.

### ESAFE DROPBOX SMALL

Mail and parcels are delivered through the top of the Dropbox to optimize the use of available space. The unit boasts a stylish design, as mail and parcels can be easily removed from the back.

### ESAFE MAXUS

An elegant parcel mailbox features distinct compartments for mail and parcels, along with a broad array of customization options for a personalized touch.

Why choose Renson?

## About Renson

### Creating healthy spaces

Our guiding principle since 1909 has been “Creating healthy spaces.” We consistently achieve this by bridging your indoor and outdoor living experiences. The result is the foundation of our versatile, high-quality outdoor living offerings. By inviting the comfort enjoyed inside, outside, you can enjoy the wonders of the outdoors year round. Our high-end outdoor living spaces combine sustainable materials with meticulous design and endless personalization possibilities. In addition, our top-notch pre-assembly during the production process ensures smooth assembly on site.

Choosing Renson means choosing years of innovation and experience, benefits that will pay dividends for years to come.

115 years of  
experience

Boundless  
Innovation

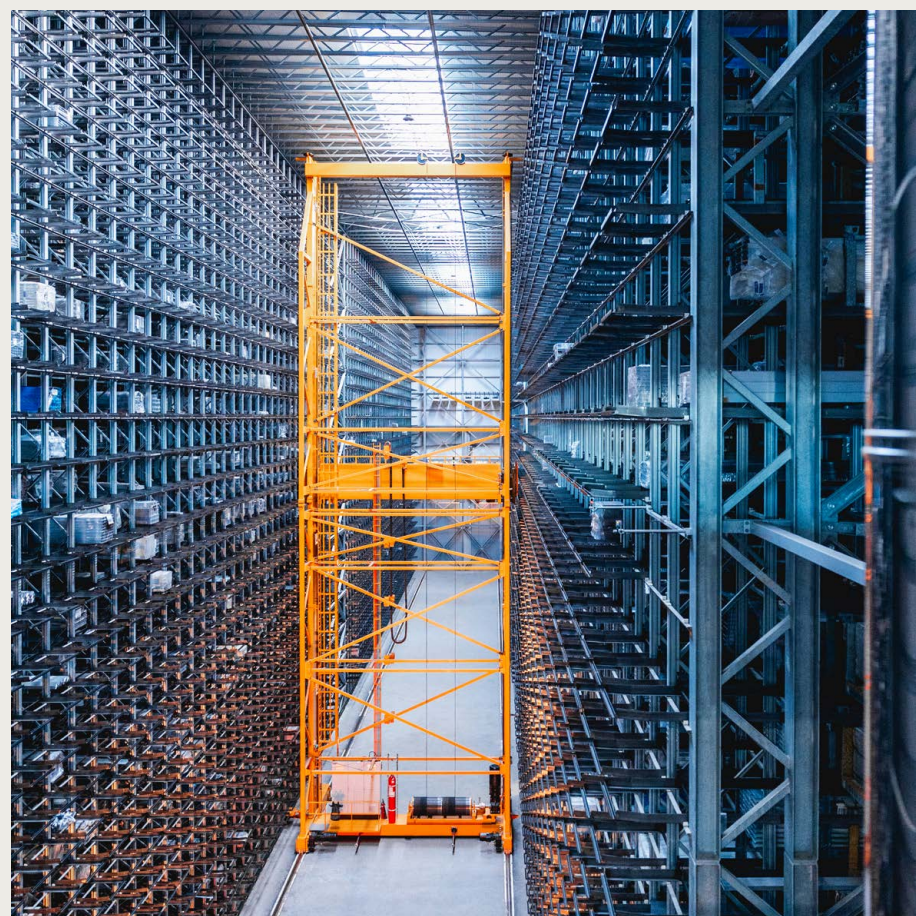

Global distribution  
network

Quality and  
design

## Sustainable custom design

### Your style, your design

Your outdoor environment is an extension of your home so it's important for you to create a cohesive design experience between the interior and outside environment. This begins with the tailor-made patio cover which you can customize using our "design styles" (learn more on p.57). A finished outdoor living space needs to fit your environment. To do this you can choose from countless color options and add natural-look materials such as wood and textiles. With Renson, you have access to a toolbox with everything you need to design your ideal outdoor living space.

### Durability at the forefront

We made a conscious decision to use aluminum as the main material for our patio covers. Aluminum is resistant to weather and is fully recyclable, and is the backbone of Renson's outdoor living story. Our designs are also easily detachable, contributing to a more circular environment.

Finally our products are made in a state-of-the-art production site that runs on renewable energy, reducing emissions. Automatic processes and manual pre-assembly complement each other perfectly. The result is a unique configuration with respect for high quality requirements and short lead times. After all, once you place your order, you want it assembled as quickly as possible.

## Minimal maintenance, maximum enjoyment

You can stay outside under your patio cover, even in harsh weather conditions. But how do you keep the structure in top condition if it is exposed to all kinds of weather? Let's start with the good news: our R&D team is keenly focussed on ease of use and maintenance. After all, the less time you have to spend cleaning, the longer you can sit back and enjoy it.

### **Renson Maintenance Set**

Our Renson Maintenance Set contains all the tips and tricks to maintain your patio cover and screen fabrics perfectly. This preserves the vibrant colors and aluminum structure from acid rain, sea air, and UV-rays. One to two cleaning sessions a year is all you'll need.

**! Did you know...**  
...by performing annual maintenance using our Maintenance Set, you're entitled to an extended fifteen-year paint guarantee?

## The Renson patio guarantee

Every bladed patio cover is meticulously developed, tested, and custom-made from durable aluminum. Our choice of materials and high-quality finish paired with professional placement by a recognized distributor, provides our guarantee of quality. We apply an official guarantee period to every product we produce. The extent of that guarantee depends on the patio cover you select. You can learn more below.
