FINISHES

Wide range of coating finishes available (all RAL colors offered) and fabric options. Predefined **Design Styles** guarantee perfect harmony between materials and colors.

PERFORMANCE

ACCESSORIES

ROOF TYPE

- Bladed roof: rotating blades
- Canvas roof: fixed roof (canvas fabric finish below)
- Open roof

BLADE TYPE

- Bi-color
- Wooddesign

AWNING

- 1 or more sides

SIDE INSERTS

- Integrated motorized screens
- Loggia sliding panels/fixed panels/folding panels possible in a variety of positions
- Glass sliding panels
- Fixed panel and sliding doors – compatible with any wood or aluminum third-party cladding, or available with Renson's Linarte cladding
- Outdoor curtains
- Up to four inserts possible per side
- Combine Loggia panels in front of the beam with an integrated motorized screen, glass sliding panels, and optional outdoor curtains for added versatility and style.

LIGHTING

- Iconic LED line
- LED blade (Lineo LED)
- Spotlights
- LED ambient lighting in the roof
- LED beam in fixed canvas roof
- Indirect wall lighting

COMFORT

- Protecto profile*
- Integrated electrical outlet or USB port
- Fixed blade with optional heating (Lineo Fix/Heat)

AUTOMATION

- Wind sensor
- Rain sensor

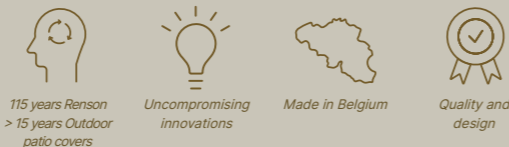

COLUMNS

- Several additional columns possible
- Shifted column

INDUSTRY CERTIFICATION

- UL
- REACH
- Seaside/coastal powder coating guarantee
- EUROCODE

Architectural design for
exclusive Outdoor Living

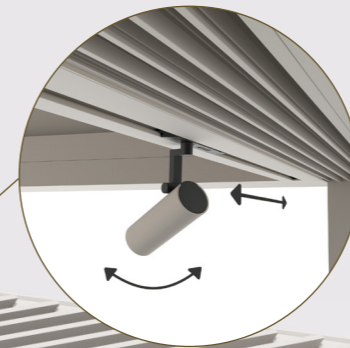

amani
BY RENSON

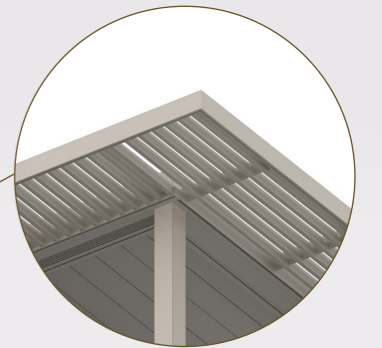

FLEXIBLE COLUMN POSITIONING
Architectural freedom without essential corner columns

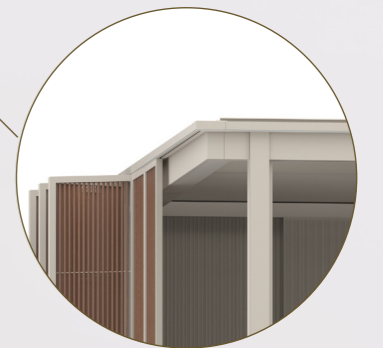

PERSONALIZE YOUR RENSON SUN PROTECTION SYSTEM WITH WOODEN OR ALUMINUM LINARTE CLADDING
Finishing to match your favorite style with or without an integrated sliding door to create an enclosed space

DYNAMIC, DIMMABLE SPOTLIGHTS
Seamless mix of functional and ambient lighting, dimmable with independent positioning

CANOPY
Astonishingly large shaded area with a light, minimalist frame

FOLDING AND SLIDING PANELS IN FRONT OF THE BEAM
Place the folding and sliding panels in front of the beam for a lighter visual aesthetic. The folding panels retract compactly for improved views

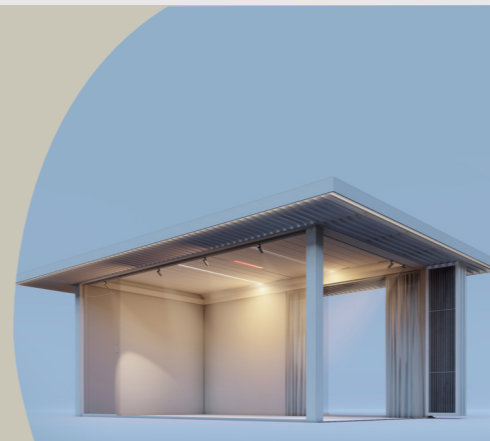

CONTROL SUN AND SHADE

Control sunlight your way with Amani. From welcoming the first rays of the day to keeping them at bay, you decide. Rotate the roof's blades to let in more light or allow rising heat to escape. Trouble with low sun? Turn up the shade with for instance the canopy and/ or insert features. The Fixscreen is retractable. It disappears into the top beam and can be lowered to any position you need. Loggia folding and sliding panels move effortlessly in front of, between, or behind the columns to create the perfect shade. You can also enhance the ambiance with outdoor curtains and glass sliding panels.

IN THE RIGHT LIGHT

As the sun sets, Amani comes to life with its iconic LED lighting, creating clean architectural lines that make it truly stand out. Dynamic spotlights are positioned to highlight specific areas, while ambient roof lighting casts a soft, warm glow, enhancing the cozy outdoor atmosphere. Need more focused lighting? The Lineo and Storage LED options provide uniform, shadow-free illumination for perfect clarity.

SHELTER FROM THE ELEMENTS

Built-in sensors automatically adjust the roof, allowing you to enjoy outdoor living, even in bad weather. For example, when it rains, the blades automatically rotate into the closed position. You can also add Loggia panels, glass panels, or other side inserts for temporary shelter. Need a more permanent solution, like covering a storage space? A fixed Renson roof with side walls and a sliding door can do the job. For extra comfort, Lineo Heat is integrated into the blades, providing a warm and inviting atmosphere.
